PROFILE

Dedicated Front-End Developer with experience building applications using React JS, JavaScript (ES6+), HTML5, CSS3, Firebase, API integrations and other front end technologies. I have a passion for writing clean, dry, and structured code to build accessible and responsive web applications. I have a deep curiosity for learning more about Software Development and I am excited to make an impact on the way people's lives are affected by it.

PROJECTS

SMOOTH LANDING [REPO](#) | [LIVE](#)

React-Router / API Integration / Firebase / Mob Programming / CSS3 / HTML5

- A single page web application that creates landing pages for clients in less than 5 minutes.
- Clients are able to copy and paste generated code for selected landing page.
- Working with the Unsplash API, clients are able to choose from a variety of background images.
- All data is stored in a firebase database for future use.

TODO-TODAY [REPO](#) | [LIVE](#)

React / Firebase / CSS3 / HTML5

- A classic CRUD todo app that organizes a list of tasks in order of priority, that are needed to be completed in a time limit of 24 hours.
- Created using React Hooks and utilizes a form to add, delete, and edit user input while retrieving and returning data from Firebase database.

OUR PANTRY [REPO](#) | [LIVE](#)

Javascript / API Integration / Paired Programming / SCSS / CSS3 / HTML5

- Multiple calls to the Spoonacular API pulls data that is calculated to render a list of recipe
- Based on the user's available ingredients in their kitchen or pantry

WORK EXPERIENCE

METRO

PRODUCE CLERK

Nov 2020 - PRESENT

- Preserved a welcoming environment by effectively communicating with at least 80 customers per shift, uncovered their needs and provided information on pricing, purchases and products.
- Maintained inventories at 100% by anticipating customer demand and efficiently managing time.
- Received no customer complaints to date because of my personable and friendly manner as well as competence.
